Simultaneous Interpretation Equipment & Services

Season's Greetings from Translation India.

Let me take this opportunity to thank you for allowing us to introduce ourselves.

Translation India is an end-to-end solution provider for Simultaneous Interpretation and Document Translation services. Over the last decade, success of conferences, meetings and events depends on the ability to reach the varied Diaspora of audience who most often come from various geographies and not necessarily communicate in one single language. Translation India with its vast experience in Simultaneous Interpretation and translation is uniquely positioned to provide the edge in your events and conferences.

Translation India has proven ability to provide services in the following areas:

A. Simultaneous Interpretation Equipment and Services:

Translation India has well-stocked inventory to manage conferences with over 15,000 guests and 18 simultaneous languages. We have the state-of-the-art technologies – FM, IR and RF to cater to all kinds of events, ISO standards sound-proof booths, a highly experienced team of professionals and technical executives and supported by a pool of skilled interpreters be it Indian or International Languages.

Translation India has provided services in many prestigious events like – Independence (15th Aug'15) day live interpretation of PM's Speech, distributor event of 15,000 attendees in 8 simultaneous languages for a world's largest marketing company.

STRENGTH: Price Advantage (Own Inventory and no need to bring in resources from other sources); Skilled and Experienced Project TEAM – to plan and manage – even the last minute changes.

B. Audience Response Systems (Voting Pads):

In today's world – Interactive and immediate feedback has become an integral part of any meeting and/or conferences. Translation India provides Voting and Polling solutions which are easy to install, simple to use and can provide instant polling results.

STRENGTH: Translation India has its own stock of ARS and can cater to multiple events simultaneously.

C. TOUR GUIDE SYSTEMS:

Translation India provides Robust systems for Shop floor and Plant visits. These systems are time-tested and have been successfully used in noisy and large areas for guided visits to factories and establishments. Extremely sturdy and easy to use. Clients have found it the most effective form of communication to promote their capabilities.

Language Translation Services

Quality, On time, Professional

Translation India has 14+ years of experience in language translations and content localization, offering language services to its clients based on on-time delivery model.

From strategy through tactical, day-to-day services, we manage your global content life cycle with industry best practices, best-of-breed tools and flawless execution.

We are a leading multilingual company, working with teams of linguists both in-house and around the world. Our language teams consist of professionals working exclusively within their expert language and remit.

Our linguists are all expert, fully qualified translators who specialize in unique fields of document translation, including business translations, contract translations and website translations. All have many years of experience translating in their fields, with particular expertise in translating for the international markets. We offer a fully comprehensive range of translation services and related document services including document certification and legalization of translations.

We are adept in the translation of numerous document types, including:

- Document Translation
- Business translation
- Legal documents
- Financial documents
- Website translation
- Medical translation
- Certified translations
- Technical documents

Translation India takes great pride in its high-caliber talented team of experienced translators who exhibit the highest levels of competence, skill and professionalism in their work. With a network of over 14000 native language translators based all over the world we have the potential to translate any kind of document that you may have, in any language spoken in any corner of the world. We have the expertise in all areas be it IT, Medical, Legal, Business or Technical. Our translators will correctly translate your material for your target audience by ensuring linguistic accuracy and correct terminology with a true cultural affinity. When you experience the quality of their work, and the proficiency with which they handle each task, you will be pleased to have found someone reliable and cost-effective to handle all your language needs.

Call Us

We have a qualified and well-experienced team of project managers who always give attention to detail from tracking the translator to monitoring time lines for deliveries for providing the best quality output at all times.
